SEWAGE WORKS JOURNAL

NINE-YEAR INDEX

VOLUMES I-IX

1929-1937

Editor:
F. W. Mohlman

Business Manager:
Wm. W. Buffum

Published by
Federation of Sewage Works Associations

Author Index

Sewage Works Journal, Volumes I–IX

1929–1937

Acker, J. E. See Fisher, L. M.

ADAMS, GEO. O. See Clark, H. W.

AGAR, C. C.
- Chemical Treatment of Sludge to Facilitate Disposal ..... V—270
- Comments on the Significance of Laboratory Tests at Sewage Treatment Plants IV—1060
- Mechanical Equipment in Sewage Treatment ..... VII—56
- Observations on the Operation of Sewage Treatment Plants ..... VIII—601
- Operating Experiences in New York State ..... V—1007

See Holmquist, C. A.

AGERSBORG, H. P. K. and HATFIELD, W. D.
- Biology of a Sewage Treatment Plant —A Preliminary Survey—Decatur, Illinois ..... I—411

ALBERTSON, JOHN G. New Canaan, Connecticut, Sewage Treatment Works IV—530

ALLEN, WM. A. Removal of Grease and Oils from Sewage by the Imhoff Method ..... III—374

ALTEMUS, FRANK B.
- Operating Difficulties in a Sewage Treatment Plant ..... VI—107
- Operation of the Norristown Sewage Treatment Works. .Op. Rep.... VIII—334

ALTHAUSEN, D., BORUFF, C. S., BUSWELL, A. M., AND SYMONS, G. E.
- Comments on Fair and Moore's Articles on "Heat and Energy Relations in the Digestion of Sewage Solids." .. V—34
- Additional Comments ..... V—233

ALTHAUSEN, DARRELL, AND BUSWELL, A. M.
- "Bound Water"—Changes During Sludge Digestion ..... IV—28
- Sludge Ripeness Studies. II. The Effect of Pressure on Digested & Chemically Treated Sludges ..... V—241

ANDERSON, C. GEORGE. Activated Sludge Control at Rockville Centre and the Prevention of Bulking ..... VIII—784

ANDERSON, NORVAL E. See Whittemore, L. C.

ASH, S. H. Detection and Measurement of Certain Types of Gases ..... V—662

Babbitt, H. E.
- Disposal of Garbage with Sewage Sludge VI—1103
- Dosing of Sewage Tanks with Ground Garbage, The— ..... VIII—16
- Possibilities of the Digestion of Garbage in a Sewage Treatment Plant, The— VII—658
- Sewage Investigations at the University of Illinois ..... III—580

BACH, HERMANN
- Cardinal Points in the Art of Sludge Digestion, The— ..... III—561
- Simple Device for Sampling Sludge, A— VI—803

BACHMANN, FRANK.
- Hydrogen-ion Control in the Digestion of Sewage Sludge on a Practical Plant Scale ..... I—218
- Why Should Municipalities Treat Their Sewage—And How Can They Do It? IV—536

BAITY, H. G. See Chrisco, H. F.

BAITY, H. G. AND BELL, F. M. Reduction of the Biochemical Oxygen Demand of Sewage by Chlorination ..... I—279

BAITY, H. G., MERRYFIELD, FRED, AND UZZLE, A. B. Some Effects of Sewage Chlorination Upon the Receiving Stream ..... V—429

BANKS, HARVEY O. I. The Palo Alto Sewage Treatment Plant. II. Generation of Electricity at Palo Alto with a Gas Engine ..... VIII—68

BANTA, A. P. Incineration of Skimmings V—659

BANTA, A. PERRY, AND POMEROY, RICHARD.
- Hydrogen-Ion Concentration and Bicarbonate Equilibrium in Digesting Sludge ..... VI—234
- Author's Reply to Criticism ..... VII—640

BAUMGARTNER, WM. H.
- Effect of Temperature and Seeding on Hydrogen Sulphide Formation in Sewage ..... VI—399

See Rudolfs, Willem.

SEWAGE

Analysis: Methods, Procedures

B. O. D. Determination, The—...Ed. IV—899
Colorimetric Method for the Determination of Dissolved Oxygen, A—. *M. L. Isaacs*.....VII—435
Comparison of Two Methods for Determination of Hydrogen Sulphide in Sewage, A—. *Harry E. Johnson*..III—205
Determination of Dissolved Oxygen by the Winkler Method, The—. *E. J. Theriault, et al.* (Committee Report, F. S. W. A.).....IV—413
Determination of Sulphides in Sewage. *Richard Pomeroy*.....VIII—572
Dissolved Oxygen in Sludge-Sewage Mixtures, Apparatus for the Determination of—. *Emery J. Theriault and Paul D. McNamee*.....VI—413
Effect of Hydrogen-Ion Concentration on the Distillation of Free Ammonia Nitrogen from Sewages and Trade Wastes. *Marian E. Foote and M. Starr Nichols*.....IV—37
Effect of the Dilution Water on the Biochemical Oxygen Demand Determination, The—. *H. Heukelekian and N. S. Chamberlin*.....III—187
Methods for the Examination of Sewage and Sewage Sludge. Symposium...II—347
Modern Measures of Efficiency in Water Purification and Sewage Treatment. *Emery J. Theriault*.....IV—283
More About the Biochemical Oxygen Demand Determination. *E. F. Eldridge* V—788
Notes on the Determination of B. O. D. *W. D. Hatfield and Kenneth Mokert*.II—521
Ordinary Chloroform as a Sewage Preservative Increases Oxygen Consumed Values. *R. T. Homewood and H. W. Ruf* II—251
Oxygen Demand Test, The Biochemical—. As Influenced by the Ratio of Organic Carbon to Total Nitrogen. *J. M. Holderby and W. L. Lea*.....VII—36
Recommended Uniform Procedure for B. O. D. Determinations. Progress Report—Joint B. O. D. Committee of the Great Lakes and Ohio River Board of Public Health Engineers.....IV—738
Sewage Analysis.....Ed. VII—575
Standard Methods of Sewage Analysis. *W. D. Hatfield*.....Op. Rep. IX—510
Standard Methods of Sewage Analysis. Report of the Committee on Methods of Sewage Analysis of the Federation of Sewage Works Associations. *W. D. Hatfield, Chairman*.....VII—444

Bacteriology; Biology

Biology of a Sewage Treatment Plant—A Preliminary Survey—Decatur, Illinois. *H. P. K. Agersborg and W. D. Hatfield*.....I—411
Multiplication of Total Bacteria and B. Coli After Sewage Chlorination. *Willem Rudolfs and H. W. Gehm*....VII—991

Chemistry

Biochemical Oxygen Demand Test, As Influenced by the Ratio of Organic Carbon to Total Nitrogen. *J. M. Holderby and W. L. Lea*.....VII—36
Biochemical Oxygen Demand, Notes on the Determination of—. *W. D. Hatfield and Kenneth Mokert*.....II—521
Biochemical Oxygen Demand Determination, More About the—. *E. F. Eldridge* V—788
Biochemical Oxygen Demand of Various Wastes, the Relation of the pH of Dilution Water to the—. *J. M. Holderby and Wm. L. Lea*.....VI—734
Biochemical Oxygen Demand, Influence of Phosphorus and Nitrogen on—. *Wm. Lea and M. Starr Nichols*.....IX—34
Comparison of Permanganate Oxygen Demand, B. O. D. and Direct Absorption of Oxygen. *Jerome Burtle and A. M. Buswell*.....VII—839
Correlation Between B. O. D. and Suspended Solids. *H. Gladys Swope*...II—500
Determination of Sulphides in Sewage. *Richard Pomeroy*.....VIII—572
Influence of Phosphorus and Nitrogen on Biochemical Oxygen Demand. *Wm. Lea and M. Starr Nichols*.....IX—34
Oxygen Demand Test and Its Application to Sewage Treatment. *J. K. Hoskins* V—923
pH Value of Sewage, Adjustment of—, By Means of Carbon Dioxide. *T. Chujo*.....IX—750
Research in Sewage Chemistry and Sewage Treatment. A Critical Review of the Literature. *Committee on Research, Earle B. Phelps, Chairman*
1932.....V—567
1933.....VI—169
1934.....VII—149
1935.....VIII—161
1936.....IX—135
Use and Abuse of the B. O. D. Test. Ed. VIII—499

Chlorination

(*See also under SEWAGE TREATMENT—Chlorination*)
Chlorination of Sewage for Biochemical Oxygen Demand Reduction. *Linn H.*

Enslow, Wm. T. Carpenter and Frank E. Hale.....IV—252
Chlorine Disinfection of Sewage. *Warren J. Scott and LeRoy W. Van Kleeck*.VI—784
Multiplication of Total Bacteria and B. Coli After Sewage Chlorination. *Willem Rudolfs and H. W. Gehm*....VII—991
Prechlorination of Sewage for Odor Control. *P. J. Houser*.....VI—509
Some Effects of Sewage Chlorination Upon the Receiving Stream. *H. G. Baity, Fred Merryfield and A. B. Uzzle*...V—429

Composition—Character (Biological, Chemical, Physical)

Institutional Sewage and Sewage Flow Characteristics. *G. M. Ridenour and I. O. Lacy*.....IV—1046
Indianapolis (Ind.), Sewage, The Hourly Variation of—. *C. K. Calvert*.....IV—815

Dilution

Effect of Dilution of Sewage on Bacterial Numbers. *H. Heukelekian*.....V—774
Some Observed Effects of Dilution on the Bacterial Changes in Polluted Water. *J. K. Hoskins and C. T. Butterfield*.V—763

Flow

Sewage Flow Characteristics, Institutional Sewage and—. *G. M. Ridenour and I. O. Lacy*.....IV—1046

Garbage Disposal With Sewage

Combined Collection and Disposal of Sewage and Food Wastes, The—. *Morris M. Cohn*.....VII—43
Disposal of Garbage in the Sewerage System, The—. *Lewis V. Carpenter, Albert C. Rogel and Bernard Grabois* VIII—728
Dosing of Sewage Tanks with Ground Garbage, The—. *Harold E. Babbitt* VIII—16

Laboratory
